## SERVICE PLAN FOR

### AVIATION STATION NORTH METROPOLITAN DISTRICT NO. 6

#### **I. INTRODUCTION**

This Service Plan for Aviation Station North Metropolitan District No. 6 (the “North District No. 6”) in the City and County of Denver (“City”), Colorado (“State”), is submitted by L.C. Fulenwider, Inc. (“Fulenwider,” references to Fulenwider also include any successor, any successor developer or an affiliate or related person or entity thereof undertaking any of the development within the North Districts, defined below) and the Estate of Karl Smith (“Smith Estate,” references to Smith Estate also include any successor, any successor developer or an affiliate or related person or entity thereof undertaking any of the development within the Smith Districts, defined below) (collectively, Fulenwider and the Smith Estate are referred to herein as the “Organizer”), pursuant to the requirements of the Special District Act, §32-1-101, et seq., C.R.S. (“Special District Act”), and more particularly § 32-1-204.5, C.R.S. The owners of the two entities that constitute the Organizer each own a part of and between them and Denver International Airport (“DIA”) own all of the property within the Project (defined below). DIA is in support of the organization of the Districts, defined below. This Service Plan also provides certain documentation required by the City’s Policy Statement Establishing Statutory Districts (“Policy Statement”) and is being submitted in connection with the planning and development of the project known as the 61<sup>st</sup> Avenue Aviation Station (the “Project”) generally located South of 71<sup>st</sup> Avenue, North of 56<sup>th</sup> Avenue, West of Tower Road and East of Pena Boulevard (the “Development Area”), as illustrated on the vicinity map attached hereto and incorporated herein as **Exhibit C**. References in this Service Plan to the “Developer” or “developer” apply to the Organizer, any affiliate or related person or entity, or any successor developer or an affiliate or related person or entity thereof undertaking any of the development of the Project, and with respect to any transaction involving advances (as described in Part VIII.E), any other person or entity funding or financing any of the public improvements as described herein.

#### **II. PURPOSES OF THE MANAGEMENT DISTRICTS**

The North District No. 6 will be a metropolitan district organized pursuant to the Special District Act in conjunction with nine other metropolitan districts, including, Aviation Station North Metropolitan District No. 1 (“North Management District”), Aviation Station North Metropolitan District No. 2 (“North District No. 2”), Aviation Station North Metropolitan District No. 3 (“North District No. 3”), Aviation Station North Metropolitan District No. 4 (“North District No. 4”), and Aviation Station North Metropolitan District No. 5 (“North District No. 5”), Smith Metropolitan District No. 1 (“Smith Management District”), Smith Metropolitan District No. 2 (“Smith District No. 2”), Smith Metropolitan District No. 3 (“Smith District No. 3”), and Smith Metropolitan District No. 4 (“Smith District No. 4”) (together, North District No. 2, North District No. 3, North District No. 4, North District No. 5 and North District No. 6 are referred to herein as the “North Financing Districts,” Smith District No. 2, Smith District No. 3 and Smith District No. 4 are referred to herein as the “Smith Financing Districts” and, collectively, the Smith Financing Districts and the North Financing Districts are referred to herein as the Financing Districts and, together, with the North Management District and the

Smith Management District, the “Districts” and the North Management District and the Smith Management District are collectively referred to as the “Management Districts”).

The Management Districts are anticipated to act as the management districts responsible for managing, implementing and coordinating the financing, acquisition, construction, completion, operation and maintenance of all public infrastructure and services within and without the Project, including, without limitation, all streets, safety protection, water, sewer, storm drainage, transportation, mosquito control, and park and recreation facilities which are more particularly described in Parts V and VI (the “Improvements”) and generally to serve the Project.

Pursuant to a series of intergovernmental agreements, the North Management District and the Smith Management District will allocate responsibilities for the managing, implementing and coordinating of the financing, acquisition, construction, completion, operation and maintenance of the various Improvements and ownership thereof, as appropriate.

The Improvements will be acquired, constructed and completed for the collective use and benefit of the property owners within, and residents of all of the Districts, as well as for all citizens of the City, the metropolitan Denver area and the State. Upon completion, it is anticipated that the North Management District or Smith Management District, as appropriate, will transfer certain improvements to the City, owners association, or another governmental entity as appropriate. The North Management District or Smith Management District, as appropriate, may operate and maintain all other improvements within and without the Inclusion Area for the benefit of all property owners within, and residents of, the Districts.

It is anticipated that Fulenwider, as well as other landowners, will make advances to the North Management District, and the Smith Estate, as well as other landowners, will make advances to the Smith Management District, as discussed in Part VIII.E necessary to fund the costs of acquisition, construction, operation and maintenance, and completion of the Improvements, until the Districts can issue bonds or enter into other obligations to finance such costs. Alternatively, the Districts may, if feasible, issue bonds and incur other obligations to fund the costs of acquisition or construction of the Improvements and to pay back any Developer advances. It is anticipated that, in accordance with the District IGA (defined below), the North Financing Districts will pay tax collections and/or bond proceeds and other revenue to the North Management District and the Smith Financing Districts will pay tax collections and/or bond proceeds and other revenue to the Smith Management District, which revenue will be applied to the payment of: (i) the acquisition, construction, and financing of the Improvements; and (ii) the costs of administration, operation and maintenance of the Improvements that are owned, operated and/or maintained by the Districts.

The existing facilities and services in the Development Area will need to be improved to support development of the Project. At this time, no other jurisdiction or entity is interested in or willing to undertake the financing, construction, or ongoing operation and maintenance of the Improvements necessary for the development. The arrangements for financing, acquiring, constructing, completing, operating and maintaining the Improvements will be set forth in a series of intergovernmental agreements between the North Management District and the North Financing Districts and between the Smith Management District and the Smith Financings

Districts, as such agreements may be amended from time to time, and agreements between the North Management District and the Smith Management District (collectively referred to as the “District IGA”), which may be entered into as by and between the Management District(s) and one or more of the Districts as well as other landowners as development progresses within the Project. The use of the North Management District and the Smith Management District, in addition to the Financing Districts, will ensure that the Improvements are financed and completed in coordination with the various phases of the Project and not sooner. This phased financing approach will also ensure that property owners within the Districts are not taxed unnecessarily for Improvements before they are needed and will reduce the costs of financing generally.

As part of the overall financing plan for the Improvements, in addition to tax revenues, the Districts will rely on PIF revenues, as defined in Part VIII.C.

The Project will have a long-lasting and positive impact on the character, property and sales tax base, employment base, and public health and safety of the surrounding neighborhoods. The use of the Districts to finance, acquire, construct and complete the Improvements will assure the provision of requisite public infrastructure and other attractive public amenities within and without the Inclusion Area. Thus, the organization of the North District No. 6 will promote the general interests of present and future property owners, residents and taxpayers within the Districts as well as the City.

### **III. PROPOSED DISTRICT BOUNDARIES / SERVICE AREA**

Initially, the boundaries of the Districts will be de minimus with the majority of the property within the Project being located in the “Inclusion Area” defined below. It is anticipated Property within the Inclusion Area will be included into one of the Districts, but inclusion is not required.

The North District No. 6 is located entirely within the City and the Project, as more particularly described in the legal description of the North District No. 6 and as shown on the boundary map, both of which are attached hereto and incorporated herein as **Exhibit A-5**.

The initial boundaries of North Management District, North District No. 2, North District No. 3, North District No. 4, North District No. 6, the Smith Management District, Smith District No.2, Smith District No. 3 and Smith District No. 4 are also located entirely within the City. The legal description of the initial boundaries of each of these Districts and the boundary maps of each of the Districts attached hereto and incorporated herein as **Exhibits A-1, A-2, A-3, A-4, A-5, A-7, A-8, A-9 and A-10**.

The majority of the property within the Project is anticipated to be included within the boundaries of one of the Districts in the future and is also located entirely within the City and is more particularly described in the legal description and depicted in the boundary map, both of which are attached hereto as **Exhibit B** and incorporated herein (the “Inclusion Area”), and contains approximately six hundred eighty-four (684) acres. For any portion of the Project that is within the boundaries of First Creek Metropolitan District (“First Creek”), prior to any inclusion of such property within any of the Districts, such property must be excluded from the

boundaries of First Creek as a condition to inclusion within any of the Districts. The service area of all of the Districts shall include the Inclusion Area and all areas needed to serve the Project. The Districts shall be authorized to construct, both within and without the Inclusion Area, the public infrastructure and services necessary in order to provide services within the Inclusion Area.

**IV. PERMITTED LAND USES / POPULATION PROJECTIONS / ASSESSED VALUATION**

The Organizers are currently working closely with the City and DIA to produce a station area plan, general development plan and rezoning scenario for the property. Development of the property will include mixed use residential and commercial land uses, consistent with the general development plan for the Property and all City zoning approved to implement such plans. The peak population of the project is estimated at 18,901 persons at build-out, calculated by applying an average of .002 persons per the square footage anticipated for each of the types of commercial development within the Project and assuming 2.5 persons per residential dwelling unit. The current assessed value of all property within the Inclusion Area is estimated for the purposes of this Service Plan to be approximately \$18,240. The estimated future assessed valuation of all property within the Inclusion Area at full build-out (anticipated to occur 40 years after initiation of the construction) is estimated to be approximately \$400 million with an estimated market value of approximately \$1.65 billion.

**V. DESCRIPTION OF DISTRICT POWERS, SERVICES AND IMPROVEMENTS**

A general description of the North District No. 6 powers and authorities, the services it will provide and the Improvements that it will acquire or construct are as follows:

**A. Services and Improvements.**

1. **Street Improvements.** The North District No. 6 shall have the power and authority to provide for the acquisition, construction, relocation, installation, completion, operation, maintenance, repair and replacement of both on-site and off-site street improvements, as authorized in the Special District Act, including, without limitation, streets, curbs, gutters, culverts and other drainage facilities, bridges, elevators, parking improvements, sidewalks, tree lawns, alleys, lighting, grading, landscaping and irrigation systems, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All street improvements shall be constructed in accordance with the plans and specifications approved by the City.

2. **Traffic and Safety Controls.** The North District No. 6 shall have the power and authority to provide for the acquisition, construction, installation and completion of a system of traffic and safety controls and devices on streets and highways as authorized in the Special District Act, including, without limitation, signalization, signing and striping, together with all necessary, incidental and appurtenant facilities, land and easements, and extensions of and improvements to such facilities within and without the Service Area. All safety improvements shall be constructed in accordance with the plans and specifications approved by the City.

3. Water Improvements. The North District No. 6 shall have the power and authority to provide for the acquisition, construction, relocation, installation and completion of a potable and non-potable water distribution system as authorized in the Special District Act, including, without limitation, distribution mains and lines, pressure reducing stations, wells, irrigation systems, hydrants, tanks and other water facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All water improvements shall be constructed in accordance with the Engineering Standards and Operating Rules of the City and County of Denver, acting by and through its Board of Water Commissioners (“Denver Water”), and the water improvements shall be subject to review and change as required periodically by Denver Water.

4. Sanitation Improvements. The North District No. 6 shall have the power and authority to provide for the acquisition, construction, relocation, installation and completion of a sanitary sewage collection and transmission system as authorized by the Special District Act, including, without limitation, collection mains and lines, lift stations and other sanitation facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All sanitation improvements shall be designed and constructed in accordance with the standards and specifications of the Wastewater Management Division of the Denver Department of Public Works (“Denver Wastewater”), Metro-Wastewater Reclamation District, the Colorado Department of Public Health and Environment, and any other applicable local, State or federal rules and regulations.

5. Stormwater Drainage Improvements. The North District No. 6 shall have the power and authority to provide for the acquisition, construction, installation, completion, operation and maintenance of a stormwater system as authorized by the Special District Act, including, without limitation, stormwater sewer, flood and surface drainage facilities and systems, water quality detention/retention ponds and associated drainage facilities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All stormwater drainage improvements shall be designed and constructed in accordance with the standards and specifications of the City and any other applicable State or federal agencies.

6. Parks and Recreation Improvements. The North District No. 6 shall have the power and authority to provide for the acquisition, construction, installation, completion, operation and maintenance of parks and recreation improvements and programs as authorized by the Special District Act, including, without limitation, pedestrian plazas, parks, multi-modal trails and bridges, open space, landscaping, entry and architectural features, recreational facilities, irrigation, public art and cultural activities, together with all necessary, incidental and appurtenant facilities, land and easements, and all extensions of and improvements to such facilities within and without the Service Area. All parks and recreation improvements shall be designed and constructed in accordance with any applicable specifications of the City.

7. Safety Protection. The North District No. 6 shall have the power and authority to provide for the acquisition, financing and construction of facilities for a system of traffic and safety controls and devices on streets and highways, including signalization, street

lights, signing and striping, together with all necessary, incidental, and appurtenant facilities, land and easements, together with extensions of and improvements to said facilities within and without the Service Area. All safety protection improvements shall be designed and constructed in accordance with the standards and specifications of the City and any other applicable State or federal agencies.

8. Transportation. The North District No. 6 shall have the power and authority to provide for the acquisition, financing and construction of transportation system improvements and facilities, including transportation equipment, park and ride facilities and public parking lots, structures, roofs, covers and facilities, all necessary incidental and appurtenant facilities, land and easements together with extensions of and improvements to said facilities within and without the Service Area.

9. Mosquito Control. The North District No. 6 shall have the power and authority to provide for the acquisition, financing, construction and/or operation and maintenance of facilities and equipment necessary for the eradication and control of mosquitoes, including, but not limited to, elimination or treatment of breeding grounds, and purchase, lease, contracting or other use of equipment or supplies for mosquito control within and without the Service Area. All mosquito control improvements shall be designed and constructed in accordance with the standards and specifications of the City and any other applicable State or federal agencies.

10. Operations and Maintenance. Other than: (i) water and sanitation Improvements that are in the nature, scope and extent customarily conveyed to Denver Water or Denver Wastewater for ownership (other than a lift station); or (ii) Improvements that one or more of the Districts has agreed to own, operate and maintain, the North District No. 6 shall not have the authority to construct the lift station or any other Improvements, not specified above, unless one of the Districts has executed an agreement with the City designating the entity responsible for ownership, operations and maintenance of the specific Improvement. The Manager of Public Works may approve any deviations from the provisions of this Section and such deviation shall not be a material modification of this Service Plan. In all events, the District shall be obligated to own and maintain any Improvements constructed by the District and not transferred to another entity for ownership and maintenance.

11. Covenant Enforcement. The North District No. 6 shall have the power to provide covenant enforcement and design review services within the Districts if the North District No. 6 and the governing body of the Owners Association, a master association or similar body contract for such services, or if the declaration, rules and regulations, or any similar document containing the covenants to be enforced name the North District No. 6 as the enforcement or design review entity.

12. Fire Protection. The Project is within the City and County of Denver's Fire Department ("DFD"). The North District No. 6 shall have the limited power to contribute funds to DFD to provide for the financing of design, acquisition, construction, completion, installation, operation and maintenance of facilities and equipment for fire protection, including fire stations, ambulance and emergency medical response and rescue services and diving and grappling stations and all necessary, incidental and appurtenant facilities, land and easements,

together with extensions of and improvements to said systems within and without the Service Area of the North District No. 6. The fire protection improvements and facilities will be operated and maintained solely by the DFD. The North District No. 6's intention in having fire protection is to enable it to use a portion of their mill levy to fund improvements of DFD that are necessary to serve the Project.

13. General. The various activities of the Districts shall be subject to City zoning, subdivision, building codes, land use regulations, and other applicable City ordinances, laws, rules, and regulations and all agreements relating thereto, so that the facility and service standards of the Districts will be compatible with those of the City. The location and installation of the Improvements authorized in this Service Plan and constructed in accordance with plans and permits approved by the City shall be exempt from the provisions of Section 31-23-209, C.R.S.

B. Other Powers.

The North District No. 6 shall have all powers and authorities granted to metropolitan districts under the Special District Act, which may be exercised to provide for the acquisition, construction, completion, operation and maintenance of the Improvements and the provision of services as authorized in and subject to the limitations set forth in the District IGA, this Service Plan and any agreements with the City. In addition to the enumerated powers and authorities and subject to the terms of the District IGA, the Board of Directors of the North District No. 6 shall also have the following authorities:

1. Service Plan Amendments. If any change of a basic or essential nature is not authorized in this Service Plan, but is otherwise required pursuant to the Special District Act, the North District No. 6 may amend this Service Plan as needed, subject to compliance with appropriate statutory and City procedures as set forth in this Service Plan.

2. Construction Phasing. The design, phasing of construction, location and completion of the Improvements will be determined by the Districts to coincide with the phasing and development of the Project and the availability of funding sources. The Districts may, in their discretion, phase the construction, completion, operation and maintenance of the Improvements or defer, delay, reschedule, rephase, relocate or determine not to proceed with the construction, completion, operation and maintenance of the Improvements, and such actions or determinations shall not constitute material modifications of this Service Plan.

3. Additional Services / Services Districts Will Not Provide. Except as specifically prohibited herein, the Districts may provide such additional services and exercise such powers and authorities as are expressly or impliedly granted in the Special District Act or by State law. Ongoing services of the Districts shall be restricted to services not provided within the Districts by the City. **The Districts shall not provide the following services: fire protection (other than as provided above) and other public safety services, operation of traffic control devices on City streets, or television relay and translation services. The Districts may provide security services pursuant to an intergovernmental agreement with the Denver Police Department.**

4. Land Acquisition and Conveyance. The North District No. 6 shall not condemn property or easements without the prior approval of the Denver City Council. The purchase price of any land or Improvements acquired by the North District No. 6 from the Developer shall be no more than its then-current fair market value as confirmed by an independent MAI appraisal for land and an independent engineer for Improvements. Land, easements, Improvements, and facilities conveyed to the City shall be free and clear of all liens, encumbrances and easements, unless otherwise approved by the City prior to conveyance. All conveyances to the City shall be by special warranty deed, shall be conveyed at no cost to the City, include an ALTA title policy issued to the City, shall meet the environmental standards of the City and shall comply with any other conveyance prerequisites.

C. Requirements for Construction and Maintenance.

The City currently has ordinances relating to the payment of prevailing wages, public art, and small or disadvantaged business enterprise participation in the City contracting for construction and certain maintenance activities. As a condition of the City's approval of this Service Plan, the North District No. 6 agrees to:

1. Prevailing Wages. The North District No. 6 shall comply with the wage provisions of the City's then-current ordinances applicable to City contracts relating to the payment of prevailing wages for any North District No. 6 contracts relating to the acquisition or construction, operation or maintenance of any Improvements, unless such contract is required to comply with Davis-Bacon or other federal wage requirements.

2. Small or Disadvantaged Business Enterprises. The North District No. 6 shall comply with the City's then-current ordinances relating to: (a) small business enterprise participation as currently set forth in Sections 28-201 to 28-231 of the Denver Revised Municipal Code ("DRMC"), as the same may be amended or recodified from time to time; and (b) any small or disadvantaged business enterprise ordinances that may subsequently be adopted by the City Council with respect to construction work that is not under contract at the time of adoption of such ordinance.

3. No Discrimination. In connection with the performance of all acts or activities hereunder, the North District No. 6 shall not discriminate against any person otherwise qualified with respect to its hiring, discharging, promoting or demoting or in matters of compensation solely because of race, color, religion, national origin, gender, age, military status, sexual orientation, marital status, or physical or mental disability, and further shall insert the foregoing provision in contracts or subcontracts let to accomplish the purposes of this Service Plan.

4. Public Art. The Districts shall initiate and implement a public art program as currently set forth in DRMC Sections 20-85 through 20-89.

**VI. ESTIMATED COSTS OF IMPROVEMENTS**

The total estimated costs of the Improvements, necessary to serve the Project are approximately \$63 million (in 2013 dollars). The cost of Improvements included within the Phase I Numerical Plan, defined below, are estimated to be \$35 million as set forth in **Exhibit F**

attached hereto and incorporated herein, which costs will be adjusted for inflation in accordance with the construction cost index utilized by the Colorado Department of Transportation (“Costs”) starting as of January 1, 2015. The remaining costs for the Improvements to support the development of the remainder of the Project are estimated to be on average \$70,000 per acre which Costs may be adjusted for inflation in accordance with the construction cost index utilized by the Colorado department of Transportation starting as of January 1, 2015. Maps of the anticipated location of the Phase I Numerical Plan Improvements are attached hereto and incorporated herein as **Exhibit E**. The location and specifications of the Improvements to support the development of the remainder of the Project will be determined as a part of and in compliance with the land use procedures, codes and ordinances of the City as they are amended from time to time.

**VII. ESTIMATED COSTS OF ORGANIZATION, OPERATIONS AND MAINTENANCE**

A. Costs of Organization.

The estimated costs of organization of the Districts are approximately \$150,000.

B. Costs of Operation and Maintenance.

The Districts’ primary operation and maintenance obligations will include maintaining and repairing the Improvements as shall be more fully set forth in the District IGA. Additional costs may include engineering (not accounted for in the design of Improvements), legal, audit, and administrative services, utilities, and other expenses related to the administration and operation of the Districts. See **Exhibit F** of this Service Plan, for the Phase I estimated costs for the consolidated operations of the Districts set forth in the Phase I Numerical Plan.

The budget adopted by the North District No. 6 will authorize expenditures for the Districts’ administration and the operation and maintenance of the Improvements. The Districts shall not have the authority to provide maintenance to any Improvements transferred to the City without the prior written approval of the Manager of Finance and the Manager of Public Works (or Manager of Parks and Recreation, if such approval relates to park and recreation improvements). Fees and charges may be imposed within the Service Area and collected by the North District No. 6, as permitted by statute and as set forth in Part VIII.C below, to the extent necessary to supplement other revenues of the North District No. 6, in accordance with the terms of the District IGA.

C. Fees to City.

The North District No. 6 shall be responsible for paying fees imposed by statute, ordinance, or by rules and regulations by the City, including, but not limited to: (i) an annual fee to the City Treasurer for property taxes collected by the City for the benefit of the North District No. 6 in accordance with State statute; (ii) an annual fee not to exceed the amount of \$3,000 for the North Management District, \$3,000 for the Smith Management District and \$3,000 for each Financing District that is not in inactive status, and \$0 for any District in inactive status for the costs that the City incurs for the annual review and monitoring of the Districts, which shall be

reasonably related to the City's administrative costs associated with the Districts, invoices for which shall be submitted to each of the Districts on January 31 of the then current year, and shall be payable on June 30 of the same year; and (iii) fees relating to the issuance of the Districts' Bonds, which shall be established in accordance with the Rules and Regulations of the City for each financing transaction undertaken by the Districts. The Bond issuance fee shall be reasonable and shall be determined by the Manager of Finance prior to each issuance and shall not exceed \$15,000. All consulting, legal and other costs incurred by the City for the review of the associated Bond documents shall be paid by the issuing District within thirty (30) days of receipt of invoice, regardless of whether the transaction closes.

## **VIII. FINANCING PLAN / PROPOSED INDEBTEDNESS**

This part of the Service Plan describes the nature, basis, method of funding and financing limitations associated with the acquisition, construction, completion, operation and maintenance of the Improvements. Additionally, this part of the Service Plan describes the District's obligation to contribute to the financing of certain regional improvements and services. The Financing Plan will be coordinated and implemented by the Districts in accordance with the terms of the District IGA, subject to all limitations set forth herein.

As used in this Section VIII, the term "Bonds" means any bonds, notes, debentures, or other evidences of a borrowing that constitute multiple fiscal year obligations of the Districts under Article X, Section 20 of the Colorado Constitution, provided, however, that the definition of Bonds shall not include any of the following: multiple fiscal year obligations established by intergovernmental agreements between and among any one or more of the Districts; or intergovernmental agreements between and among any one of the Districts and any other government, including the City and County of Denver.

### **A. Financing Plan.**

The Financing Plan for the Districts is for the Districts to incur debt, from time to time, to fund the Improvements to support the development of the Project from property tax revenues derived from a mill levy not to exceed the District Debt Mill Levy Cap (defined in VIII.G.10 below), specific ownership taxes, System Development Fee ("SDF") revenues, and other rates, fees, tolls and charges of the District permitted under State Statutes, and Public Improvement Fee ("PIF") revenues and other revenues pledged to the District. The Financing Plan incorporates all of the provisions of this Part VIII of the Service Plan.

A numerical example of an application of the Financing Plan for Phase I of the Project is attached as **Exhibit F** and incorporated herein ("Phase I Numerical Plan"), is a consolidated presentation of the Phase I revenues from all of the Districts and includes the estimated property tax revenue of the Districts, revenue available from specific ownership taxes, fees, PIF, and other amounts available for payment of debt service on Bonds and for operations and maintenance expenses.

The Phase I Numerical Plan projects the issuance of Bonds to fund Phase I Improvements and anticipated debt repayment based on the development assumptions and absorptions of the property within Phase I of the Inclusion Area as prepared by the Developer

and its economic and planning consultants. The Phase I Numerical Plan anticipates that, in accordance with the terms of the District IGA, the Management Districts will acquire, construct and complete all Improvements needed to serve Phase I of the Development area, including repaying any Developer advances, and that the Financing Districts will tax all property within their boundaries in support of such activities.

The future numerical plans for each phase of the Financing Plan of the Districts will be prepared by the Districts as required for the actual phasing and build-out of the Project and will model the assumed revenue for timely repayment of the debt as amortized in accordance with the terms of the proposed financing documents for such phase of improvements to which the future numerical plan applies. Further such future numerical plans shall be in accordance with all of the terms of the narrative Financing Plan set forth herein. It is anticipated that the North Management District will issue Bonds as discussed in subpart VIII.D below; provided, however, that the North Financing Districts may pursuant to the District IGA, issue Bonds directly. It is also anticipated that the Smith Management District will issue Bonds as discussed in subpart VIII.D below; provided, however, that the Smith Financing Districts may pursuant to the District IGA, issue Bonds directly.

The Financing Plan demonstrates that the Districts will have the financial ability to discharge all Bonds to be issued as part of the Financing Plan on a reasonable basis since the Districts: (i) will be issuing debt on a phased basis to support new development; (ii) will not pledge to impose property taxes for repayment of the debt in excess of the District Debt Mill Levy Cap; (iii) will not issue debt above the District Debt Issuance Limit; and (iv) will secure the certification of an External Financial Advisor Certification as to the market reasonableness of the terms of the debt issuance at the time of issuance.

#### B. Mill Levies.

It is anticipated that the North Districts will impose a general fund property tax levy and a debt property tax levy on all taxable property within their respective boundaries which will be pledged for payment of operations, maintenance, construction and financing of the Improvements for which the North Districts are responsible.

It is anticipated that the Smith Districts will impose a general fund property tax levy and a debt property tax levy on all taxable property within their respective boundaries which will be pledged for payment of operations, maintenance, construction and financing of the Improvements for which the Smith Districts are responsible.

1. Debt Mill Levy. The Districts may levy property taxes for the purpose of paying debt service (a “District Debt Mill Levy”). The Phase I Numerical Plan assumes 38 mills will be imposed as the District Debt Mill Levy. Until the conditions of VIII.G.12 have been satisfied, the Districts shall not impose a District Debt Mill Levy that is greater than the District Debt Mill Levy Cap, as defined in VIII.G.10 below. Additionally, neither the North Management District nor the Smith Management District shall require any of the Financing Districts to impose a District Debt Mill Levy in an amount in excess of the District Debt Mill Levy Cap.

2. Operating Mill Levy. The tax levy of each of the Financing Districts for operation and maintenance purposes (the “District Operating Mill Levy”) is projected to be five (5) mills. Provided, however, the District Operating Mill Levy will be set to meet budgetary needs of the Districts on an annual basis in accordance with the District IGA.

C. Fees.

Each of the Districts may impose and collect, as a source of revenue for repayment of debt, capital costs, and/or for operations and maintenance, fees, rates, tolls, penalties, or charges as permitted by statute. Additionally, as part of the overall financing plan for the Improvements, the Districts will rely upon public improvement fee (“PIF”) revenues. The PIF will be established privately by one or more covenants (collectively, the “PIF Covenant”) recorded against the property within the Inclusion Area by the owners of the property, and will generate revenue from retail sales transactions and lodging transactions occurring within the Districts. The PIF Covenant will provide for one or more of the Districts to be the “Designated Receiving Entity” of the PIF revenues. The PIF revenues may be pledged or used by the Districts, in part or in whole, for purposes of financing the construction of and operation and maintenance, or both of the Improvements.

D. Bond Issuance.

The Financing Plan anticipates issuing General Obligation Bonds and Revenue Bonds which may be issued in a multiple series of Bonds with the combined principal amount of approximately \$256,155,000 to fund approximately \$ 85,385,000 of the total estimated Costs and other costs of issuance and bond reserves, when adequate property tax revenues and PIF revenues are available from the Financing Districts to pay such Bonds. Alternate numerical plans to implement the Financing Plan to fund the Costs in order to complete the Improvements with Bonds issued in an aggregate amount to not exceed \$500,000,000 may be implemented by the Districts, without having to amend this Service Plan. If voter approval has been received, the Districts may enter into multiple-fiscal year financial obligations with the City and other entities of any nature, including, without limitation, intergovernmental agreements and acquisition, reimbursement and funding agreements with the developer to accomplish any of the various purposes authorized in this Service Plan, subject to all terms and limitations set forth herein or any other agreement related thereto to which any of the Districts is a party. Refunding Bonds may be issued by the Districts to defease original issue Bonds in compliance with the terms of subpart VIII.G below and all applicable State and federal laws and shall not apply towards the Districts’ aggregate District Debt Issue Limit set forth in VIII.F below.

E. Developer Advances.

Currently, it is anticipated that the Developer or other entities, will make advances to the Districts as necessary to fund a portion of the costs of the acquisition, construction and completion of the Improvements in accordance with the terms of acquisition, reimbursement or funding agreements, which may be entered into by one or more of the Districts and a developer. Any pledge for repayment of Developer advances shall be subject to those certain limitations for the issuance of Bonds set forth in subparts VIII.G.2., VIII.G.3, VIII.G.5, VIII.G.6, VIII.G.9, VIII.G.10, VIII.G.11, VIII.G.12, and VIII.G.14. Obligations incurred by the Districts under such

agreements are expected to be repaid by the Districts from Bond proceeds or from other available funds, including, without limitation, the District Debt Mill Levy Cap of the Financing Districts as specifically described in the provisions of the District IGA. The Developer or other entities may also advance funds to the Districts for the payment of operating and maintenance expenses, which advances may be repaid from Bond proceeds, property tax collections or other revenue.

F. Debt Authorization.

At an election to be held November 5, 2013, each of the Districts shall seek authority to issue revenue or general obligation Bonds in total principal amounts not to exceed \$500,000,000. Since each District must vote its own debt authorization for each of the categories of Improvements, each District must, by law, have the full debt authorization available to it in the event that any one of the other Districts finances, acquires, constructs and completes the Improvements. It is anticipated that the Districts will utilize their debt authorization to issue property tax supported Bonds and/or notes to the Developer, subject to the limitations in VIII.G below, and to enter into the District IGA to pay over their property tax revenue in support of the repayment of such notes and Bonds. Initially, each of the Districts will have the full \$500,000,000 in debt authorization for financing the Improvements available to each of them. The aggregate debt of the Districts for funding the costs of the Improvements shall not exceed \$500,000,000 (“District Debt Issuance Limit”). When any of the Districts issues debt, the amount of that Bond shall be subtracted from and reduce the amount of Bonds it and the other Districts are permitted to issue under their service plans; provided, however, that agreements between any of the Districts and another governmental entity, including, but not limited to, the Financing Districts and the Management Districts or between the Management Districts for the pledge of revenues to support the Management Districts’ Bonds shall not reduce the aggregate debt authorization of the Districts. In addition, debt issued for refunding purposes shall not reduce the aggregate debt authorization of the Districts.

The total principal amount of Bond authorization to be voted by each District exceeds the Costs of the Improvements to allow for unforeseen contingencies and increases in construction costs due to inflation and to cover all organizational and bond issuance costs, including capitalized interest, reserve funds, discounts, legal and other consulting fees, and other incidental costs of issuance. A sample of form ballot questions, including those related to seeking Bond authorization, to be submitted to the electors of the Districts is attached to this Service Plan as **Exhibit G** and incorporated herein. This sample is being provided as an example and the actual ballot questions presented to the voters will vary from this format as required from time to time to secure the authorization necessary to fund the costs of acquisition, construction, operation and maintenance, and completion of the Improvements.

G. Parameters for Debt Issuance.

Unless otherwise previously approved in writing by the Manager of Finance, all Bonds issued by any of the Districts shall be subject to the following restrictions:

1. General obligation or revenue Bonds issued by any of the Districts shall mature not more than thirty (30) years per series from the date of issuance with the first maturity being not later than five (5) years from the date of issuance.

2. The maximum voted interest rate shall be eighteen percent (18%) and the maximum discount shall be four percent (4%). The exact interest rates and discounts will be determined at the time that Bonds are sold. Such Bonds will be structured to obtain competitive interest rates for comparable bonds.

3. The Bonds generally will contain adequate call provisions to allow for the prior redemption or refinancing of such Bonds. Bonds sold to developers (excluding any financial institution, mutual fund, investment trust or accredited investor that does not control, and is not controlled by the Developer or any affiliate or related person or entity) shall be callable not later than five (5) years after their date of issuance, unless such limitation is waived in writing by the Manager of Finance.

4. No uninsured Bonds shall be issued that contain provisions permitting acceleration of the Bonds upon default unless approved in writing by the Manager of Finance.

5. At least thirty (30) days prior to the issuance of any Bonds, the issuing District shall deliver to the Manager of Finance of the City a numerical plan for such bond issuance that models the assumed revenue for repayment of the debt as amortized in accordance with the terms of the proposed financing documents. The Manager of Finance shall have the right to waive this requirement or shorten the time frame required herein in the Manager of Finance's sole discretion. Notwithstanding the foregoing, multiple fiscal year obligations incurred pursuant to intergovernmental agreements shall be excluded from the requirements of this provision.

6. A Certification as to the market reasonableness of the interest rate and terms of Bonds sold shall be provided by an underwriter, investment banker or individual entity listed as a public finance advisor in the Bond Buyer's Municipal Market Place and which advises Colorado governmental entities on matters relating to the issuance of securities by Colorado governmental entities, such as the pricing, sales and marketing of such securities ("External Financial Advisor Certification"), and shall be delivered to the Manager of Finance within five (5) business days of closing on any Bond issuance.

7. The Districts will comply with all applicable Securities and Exchange Commission and U.S. Treasury or Internal Revenue Service laws and regulations and the State Constitution and any State securities laws or regulations.

8. The Districts will inform the Manager of Finance in writing within three (3) days after a debt service payment date if such payment is not made in full by the Districts. To the extent feasible, the Districts will also provide written notice to the Manager of Finance of any likely event of nonpayment in advance of such debt service payment date.

9. Notwithstanding anything in the Service Plan to the contrary, no new money obligations (e.g., Bonds and certificated leases) shall be incurred by any of the Districts in the event that such District has previously undertaken to do a refunding of outstanding

obligations for the purpose of avoiding a default without obtaining the prior written approval of the Manager of Finance after providing evidence satisfactory to the Manager of Finance either that: (i) such district is then capable of discharging its Bonds as they come due; or (ii) such refunding obligations themselves are no longer outstanding.

10. Any Bonds issued by any of the Districts that are payable in whole or in part from ad valorem property taxes (“Tax Supported Obligations”) shall be issued only as limited tax obligations subject to a debt service mill levy cap of 50 mills as may be adjusted pursuant to subpart VIII.G.11 and 12 below (the “District Debt Mill Levy Cap”) and subject to other applicable State law. Subject to the termination of the District Debt Mill Levy Cap as set forth in subpart VIII.G.12 below and certain adjustments authorized in subpart VIII.G.11, none of the Districts may levy or promise to levy an ad valorem property tax for repayment of outstanding Tax Supported Obligations in excess of the District Debt Mill Levy Cap.

11. The District Debt Mill Levy Cap may be adjusted to take into account legislative or constitutionally imposed adjustments in assessed values or the method of their calculation (as of January 1, 2013), so that, to the extent possible, the actual revenues generated by the District Debt Mill Levy Cap are neither diminished nor enhanced as a result of such changes. Among other adjustments, a change in the ratio of actual valuation of assessable property shall be deemed a change in the method of calculating assessed valuation. On or before December 1 of the year before any fiscal year in which an adjustment is made to the District Debt Mill Levy Cap pursuant to this paragraph, the North Management District shall provide the calculation of any such adjustment to the mill levies of any of the North Districts to the Manager of Finance, and the Smith Management District shall provide the calculation of any such adjustment to the mill levies of any of the Smith Districts to the Manager of Finance.

12. The District Debt Mill Levy Cap shall remain in effect for all Bonds until such time as the assessed valuation of all taxable property within the boundaries of the Districts whose mill levies are pledged or obligated for those particular Bonds is equal to or greater than two (2) times the outstanding Bonds of the Districts, together with any series of general obligation Bonds proposed for release from the District Debt Mill Levy Cap, or until a credit facility is secured as described in Section 32-1-1101(6)(a)(III), C.R.S. Further, the total principal amount of outstanding Bonds of the Districts shall not exceed the District Debt Issuance Cap unless approved in writing by the Manager of Finance.

13. The Districts shall not pledge as security for any Bonds or other obligations any land, Improvements, revenue or funds to be transferred or pledged to the City.

14. The Districts shall notify and receive the prior written approval of the Manager of Finance before participating in or approving the creation of any corporate authority or other entity to act on the Districts’ behalf, or obtaining financing through such an entity. The Manager of Finance may require documentation showing material compliance with all provisions of this Part VIII before the Districts participate in or creates such corporate authority or entity, or obtains financing through such corporate authority or entity.

15. No later than five (5) business days after the sale of any Bonds, the Districts shall provide copies of final Bond documents, an opinion to the City from counsel

opining that the final Bond documents are in general conformance with the applicable provisions of this Service Plan and all applicable State and Federal laws and rules, and an External Financial Advisor Certification. A bond legend shall be included stating the City has no responsibility for payment of any Bonds.

#### H. Revenue Sources.

For so long as the North Management District acts as the management and control district for the North Districts within the Project, it is expected to rely primarily on Fulenwider, tax revenues and other revenues received from the Financing Districts, pursuant to the District IGA to provide facilities and services. For so long as the Smith Management District acts as the management and control district for the Smith Districts within the Project, it is expected to rely primarily on the Smith Estate, tax revenues and other revenues received from the Financing Districts, pursuant to the District IGA to provide facilities and services. Other sources of revenue available to the Districts may also include, without limitation, revenue or moneys received from other metropolitan districts pursuant to intergovernmental agreements between such other metropolitan districts and the Districts, State or federal or other governmental agency grants or loans (including HUD §108 loans), earnings derived from the reinvestment of bond funds, capitalized interest, property and specific ownership tax revenues, PIF revenues (as discussed in Part VIII.C above), and facilities fees collected by the Management Districts or the other Districts and utilized pursuant to the District IGA. The Districts are authorized to establish a system of rates, fees, charges and penalties in accordance with the Special District Act in order to generate additional revenue for the payment of any Bonds or other obligations and operating costs as needed. The Districts will not apply for Conservation Trust Funds, Great Outdoors Colorado funds, or other grant funds available from or through governmental or nonprofit entities that the City is eligible to apply for without the prior written approval of the Mayor.

The anticipated revenue sources will be sufficient to retire the Districts' proposed indebtedness if growth occurs as anticipated. Variations in assessed valuation projections or in the phasing of private improvements may affect the mill levy and the level of fees, rates and charges upward or downward. No funds or assets of the City will be pledged as security for the repayment of any obligation of the Districts.

Attached as **Exhibit H** and incorporated herein is a comparison of the anticipated mill levies of the Districts and the mill levies of similar taxing entities in the Denver metropolitan area, which comparison demonstrates that the anticipated mill levies of the Districts are comparable to those of other districts.

#### I. Operations, Maintenance and Administration.

The Districts will need sufficient funds to perpetually operate and maintain all Improvements until such time as they are accepted by the City and following acceptance thereof, transferred to the City or other appropriate entities. In addition, the Districts will incur costs for various administrative functions, including legal, engineering, accounting and compliance. At full build-out, a property tax of five (5) mills levied within the Districts is anticipated to be sufficient to operate the Districts and to maintain the Improvements. Provided, however, the

District Operating Mill Levy will be set to meet budgetary needs of the Districts on an annual basis in accordance with the District IGA.

#### **IX. INCLUSIONS / EXCLUSIONS**

The Districts shall be authorized, upon property owner petition, to include into their respective boundaries and exclude property from their respective boundaries property that is within the Inclusion Area as depicted in **Exhibit B** without the prior written approval of the City. In the case of exclusions, any exclusion of property that is not included in one of the other Districts must first receive the prior written approval of the City. No property will be included into more than one District without the prior written approval of the City. The inclusion of any property into one of the Districts that is located outside of the Inclusion Area shall require the prior written approval of the City. Such actions will not constitute a material modification of this Service Plan. Inclusion and/or exclusion proceedings shall be conducted in accordance with the Section 32-1-401, et seq., C.R.S., and Section 32-1-501, et seq., C.R.S., as applicable. Any inclusion or exclusion hereunder must not cause a negative effect on the including/excluding District's ability to meet its then-existing obligations. For the purposes of this Article IX, the approval of the City's Manager of Finance and the City's Manager of Public Works shall constitute the approval of the City.

#### **X. DISSOLUTION / CONSOLIDATION**

The Districts may pursue consolidation of their boundaries or dissolution in accordance with Parts 6 or 7 respectively of the Special District Act. The approval of the City Council will be required prior to the consolidation of any one of the Districts with another special district other than a consolidation between or among the Districts.

The Districts will dissolve the later of: (i) when there are no operation or maintenance obligations, financial obligations, outstanding Bonds or other obligations; or (ii) upon a determination of the City Council that all of the purposes for which the Districts were created have been accomplished and that all of their respective financial obligations have been defeased or secured by escrowed funds or securities meeting the investment requirements in Part 6 of Article 75 of Title 24, C.R.S. The Districts' dissolution prior to payment of all Bonds or other obligations shall be subject to the approval of a plan of dissolution in the District Court for the City and County of Denver pursuant to Section 32-1-704, C.R.S.

#### **XI. REQUIRED NOTICES, DOCUMENTATION AND COORDINATION WITH CITY**

At least annually following the year of its organization, each District shall provide notice by publication in a major Denver newspaper of its existence and of the next scheduled public meeting of its Board of Directors. Such meeting shall occur at least thirty (30) days and not more than sixty (60) days following the date of publication. Such notice shall include the address of the Districts' office where the names and addresses of the Board of Directors and their officers and the address, telephone number, fax number, and email address of such District may be obtained and shall also include reference to the existence of a district file maintained by the

City as described below. Any of the requirements set forth in this Article XI may be performed by the Management Districts pursuant to the District IGA.

The Districts shall provide to the City the following information and documents on an annual basis, if such information differs from the information provided in any previous year: (i) annual budget of each of the Districts to both the Manager of Finance and the Manager of Public Works; (ii) annual construction schedules for the current year and reconciliation of the capital improvement program for completion of the Improvements in the following two (2) years to the Manager of Finance and Manager of Public Works; (iii) annual audited financial statements (or any exemption filing made to the State Auditor) of each of the Districts to the Manager of Finance; (iv) total debt authorized, total debt issued, and remaining debt authorized and intended to be issued by each of the Districts to the Manager of Finance; (v) names and terms of the members of the Board of Directors and their officers of each of the Districts to both the Manager of Finance and Manager of Public Works; (vi) any bylaws, rules and regulations of the Districts regarding bidding, conflict of interest, contracting and other governance matters to the Manager of Public Works; (vii) current intergovernmental agreements and amendments among the Districts to both the Manager of Finance and Manager of Public Works; (viii) a summary of all current contracts for services or construction of each of the Districts to the Manager of Public Works; (ix) current documentation of credit enhancements to the Manager of Finance; (x) official statements of current outstanding bonded indebtedness of the Districts, if not already received by the City, to the Manager of Finance; (xi) current approved Service Plan of each of the Districts and amendments thereto, to both the Manager of Finance and Manager of Public Works; (xii) the Management District office contact information to both the Manager of Finance and Manager of Public Works; and (xiii) any change in proposed development assumptions that impacts the financial projections. Additionally, the Districts will file a map with the City Clerk each year in accordance with Section 32-1-306, C.R.S. and City standards.

The following events shall be reported to the Manager of Finance within thirty (30) days of such occurrence, to the extent such information is known and available to the Management District: (i) a negative change in any bond rating or the failure of a credit facility; (ii) a change, if known, in any development assumption that materially and negatively impacts the bond financing projections for any series of issued Bonds; (iii) a change in use of a particular property (i.e., from commercial to residential use) that materially and negatively impacts the ability of any of the Districts to discharge its indebtedness; or (iv) any bankruptcy related filing of either of the Management District or either of the Financing Districts.

In order to provide additional notice to purchasers of residential units in the Project of the property taxes required to be paid to the Districts, beginning on January 31, 2014 and by January 31 of each subsequent year, each of the Districts shall record a notice affecting all real property included within such District stating: (i) the current property tax mill levies of the District; (ii) the maximum property tax mill levies authorized by the Service Plan for the District; and (iii) the name and address of a contact person for the District.

Notices to the North District No. 6 may initially be provided to Aviation Station North Metropolitan District No. 6, c/o McGeady Sisneros, P.C., 450 East 17<sup>th</sup> Ave., Suite 400, Denver, Colorado 80203. An alternative notice party may be designated by the North District No. 6 in its discretion.

## **XII. MATERIAL CHANGES AND OTHER APPROVAL REQUIREMENTS**

The following actions or changes shall not constitute material modifications of this Service Plan under the Special District Act, as long as such actions or changes are preceded by the identified approvals: (i) inclusion of any property into any of the Districts that is not located within the Inclusion Area of the Districts as depicted in **Exhibit B** shall require the prior written approval of the Manager of Finance and the Manager of Public Works, and conversely, if the appropriate prior written approvals are not obtained for such inclusion, the inclusion shall be deemed a material modification of this Service Plan; (ii) consolidation of the Management District with any other special district other than a consolidation between or among the Districts shall require the prior written approval of the City Council; (iii) formation of separate corporations, authorities or other entities, other than a district enterprise under TABOR, shall require the prior written approval of the Manager of Finance as provided in Part VIII.G.14; (iv) issuance of Bonds in any material amount or type or at any time not authorized by the Service Plan shall require the prior written approval of the Manager of Finance; (v) acquisition of land or easements that would otherwise be dedicated to the City shall require the prior written approval of the Manager of Public Works; (vi) condemnation of property or easements shall require the prior written approval of the City Council; or (vii) dissolution of the North District No. 6 prior to the repayment of all Bonds shall require the prior written approval of the City Council.

## **XIII. CONCLUSION**

This Service Plan establishes that:

- A. There is sufficient existing and projected need for organized service in the area to be served by the North District No. 6;
- B. The existing service in the area to be served by the North District No. 6 is inadequate for projected needs within the Project;
- C. The North District No. 6 (acting in cooperation with the other Districts) is capable of providing economical and sufficient service to the area within its proposed boundaries;
- D. The area to be included in the North District No. 6 does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis;
- E. Adequate service is not, and will not be, available to the area through the City or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis;
- F. The facility and service standards of the North District No. 6 will be compatible with the facility and service standards of the City;
- G. The proposal is in compliance with any duly adopted City, regional or state long-range water quality management plan for the area; and
- H. The organization of the North District No. 6 is in the best interests of the area proposed to be served.

<b>Public Improvement Fee (PIF) Revenue Calculations:</b>			
<b>Surface Parking Assumptions:</b>	Assume \$4.00 Fee Day for Park, Lot at 85% Occupancy Per Day (11.000 Spaces)	<b>Surface Parking Contribution to PIF:</b>	Surface Parking Contribution to PIF = (94.00 * 365 Days * 11.000 Spaces) * 50% Occupancy = \$191,800 PIF Revenue Per Year (at Full Buildout 2035)
<b>Retail Assumptions:</b>	Retail Sales per Square Foot Typically \$200.00 Per Year For 100% of All Building Square Footage. Service Plus Financial Projections Assume \$200.00 per Square Foot Per Year. And 20% of Square Footage Contributory \$40.00 Revenue Eligible to PIF	<b>Retail Contribution to PIF:</b>	Retail Contribution to PIF = (110,000 SF Retail * \$200 Per SF Per Year) * 50% of Total SF = \$11,000,000 PIF Revenue Per Year (at Full Buildout 2035)
<b>Hotel Assumptions:</b>	Service Plus Financial Projections Assume \$555 Per Day Per Room. Hotel Assumed to be 85% Occupied Per Day	<b>Hotel Contribution to PIF:</b>	Hotel Contribution to PIF = (110 Rooms * 365 Days * \$555 Per Room) * 50% Occupancy = \$109,800 PIF Revenue Per Year (at Full Buildout 2035)
<b>Total PIF Revenue:</b>			\$122,314,600 Total PIF Revenue (at Full Buildout 2035)
